## **INVESTMENT POLICIES**

The Company seeks to obtain capital appreciation of its assets through the utilization of nontraditional options trading strategies. The Company was incorporated in the BVI in October 1990. The Manager has established a discretionary account for Sentry at Bernard L. Madoff Investment Securities ("BLM"), a registered broker-dealer in New York, who utilizes a strategy described as "split strike conversion". This strategy has defined risk and profit parameters, which may be ascertained when a particular position is established. All investment decisions in the account at BLM are effected by persons associated with BLM. The firm, which employs approximately 150 people, acts primarily as a market maker in stocks and convertible securities. Most of the stocks for which it acts as a market maker are also listed on the New York Stock Exchange. Set forth below is a description of the "split strike conversion" strategies.

The establishment of a typical position entails (i) the purchase of a group (or basket) of equity securities that together will highly correlate to the S&P 100 Index (the "OEX"), (ii) the sale of out of the money OEX call options in an equivalent contract value dollar amount to the basket of equity securities purchased, and (iii) the purchase of an equivalent number of out of the money OEX put options. A call option is out of the money when its strike price is greater than the current price of the stock; a put option is out of the money when the strike price is lower than the current price of the stock. The basket typically consists of approximately 35 stocks in the S&P 100 Index.

The logic of this strategy is that once a long stock position has been established, selling a call against such long position will increase the standstill rate of return, while allowing upward movement to the short call strike price. The purchase of an at or out of the money put, funded with part or the entire call premium, protects the equity position from downside risk.

A bullish or bearish bias of the positions can be achieved by adjustment of the strike prices in the OEX puts and calls. The further away the strike prices are from the price of the S&P 100 Index, the more

bullish the strategy. However, the dollar value underlying the put options always approximates the value of the basket of stocks.

### **TRANSACTION EXECUTIONS**

BLM acts as a principal in connection with its sale of securities to the Company and the purchase of securities from the Company. BLM acts as a market-maker in the stocks purchased and sold by the Company. These market making activities enable BLM to trade with the Company as principal.

The options transactions executed for the benefit of the Company are effected, primarily, in the over-the-counter market, not on a registered options exchange.

See "*POTENTIAL CONFLICTS OF INTEREST*".

### **OTHER INVESTMENTS**

In order to ensure that the Company will not be subject to United States federal income taxation on trading gains from the disposition of certain investments, the Company will not invest in any "United States real property interest" (including, for example, certain interests in any U.S. Corporation that is a "United States real property holding corporation"), as such terms are defined under the U.S. Internal Revenue Code of 1986 (the "Code") and the Treasury Regulations promulgated thereunder. See "TAX CONSIDERATIONS AND EXCHANGE CONTROL."

The Company may invest some of its assets in short-term U.S. government obligations, certificates of deposit, short-term high grade commercial paper and other money market instruments (but not money market mutual funds), including repurchase agreements with respect to such obligations. In order to ensure that substantially all of the interest earned by the Company will not be subject to United States federal withholding taxes, any investment in an obligation of a U.S. person or entity (other than in certificates of deposits in banks) primarily will be in an instrument (i) which is issued and purchased at a discount from its face amount, which is not otherwise interest bearing, and which has a term of no more than 183 days from the date of issuance or (ii) which is in registered form and which is issued after July 18, 1984. See "TAX CONSIDERATIONS AND EXCHANGE CONTROL."

### **OFFERING OF THE SHARES**

The Company is offering up to 5,000,000 shares (the "Shares"). The initial offering price on November 30, 1990 was U.S. \$200 per Share. The Shares are being offered at a price equal to the Net Asset Value per Share (as defined) on the date of issuance. As of April 30, 2000, 3,760,278 Shares were issued and outstanding with a Net Asset Value per Share of \$686.23 (subject to audit). The Shares may not be sold directly or indirectly to (i) natural persons who are citizens, nationals, or residents of, or institutions or other entities organized, created, formed, chartered or resident in, the United States of America, (ii) entities as to which any person or entity described in (i) above is, directly, or indirectly, a beneficiary, fiduciary, grantor or decedent, or (iii) institutions or other entities owned, in whole or in part, directly or indirectly by the persons or entities described in (i) or (ii) above ("U.S. persons"). No shares may be subject to an option held by a U.S. person. Any transfer of Shares to a U.S. person is prohibited and

FAIRFIELD SENTRY LIMITED

INFORMATION MEMORANDUM

will be subject to immediate and compulsory redemption by the Company. See "TRANSFERS, REDEMPTIONS AND TERMINATION - Transfers."

The minimum initial purchase by each subscriber is U.S. \$100,000, unless the Company deems it advisable to permit subscriptions for a lesser amount. The Company may reject any subscription, in whole or in part, in its discretion. All subscriptions, once made, are irrevocable to the subscriber.

All proceeds from the sale of Shares will be received by the Company in trust and will be deposited by the Company into segregated interest bearing accounts in the Company's name at the Company's escrow bank, Citco Bank Nederland, N.V. ("Citco").

The Company will offer its Shares on a continuous basis at a price equal to the Net Asset Value per Share as of the date of issuance. Subscriptions received during any monthly period will be accepted as of the first day of the following month. Thus, for example, subscriptions received between January 1 and January 31 will be accepted as of February 1. The Company reserves the right, in its discretion, to accept any subscription prior to such first day.

There are no underwriting arrangements with respect to the offering of Shares. All solicitations of subscriptions will be made directly by the Company or through the assistance of unaffiliated placement agents and money managers, who may charge a placement fee of up to 5% of the total amount of the subscriptions for Shares sold, and/or share in the fees earned by the Manager. The unaffiliated placement agents and money managers may rebate all or a portion of such fees to their clients.

The Company was admitted to the Official List of the Irish Stock Exchange, Dublin, Ireland, on January 12, 1995. The Company was issued SEDOL number 0-330-934. There can be no assurance that a trading market in the Company's Shares will develop. This listing does not affect shareholder redemption rights.

### **NET ASSET VALUE DEFINED**

Net Asset Value is defined as the Company's total assets including (i) all cash and cash equivalents, including bank deposits and interest bearing obligations (valued at cost plus accrued interest and discount), (ii) securities positions (valued at closing prices), and (iii) the liquidating value of all options positions, less total liabilities of the Company (utilizing generally accepted accounting principles as a guideline, consistently applied under the accrual method of accounting), except to the extent set forth below:

- 1) In the case of extraordinary circumstances which warrant a different valuation of any securities, such as an inability to liquidate existing positions, such securities will be valued at such prices as the Manager shall determine; and
- 2) The amount of any distribution or dividend made shall be a liability of the Company from the day when the distribution or dividend is declared until it is paid.

The Company's Board of Directors shall make all decisions on the valuation of assets and liabilities and determination of Net Asset Value.

Net Asset Value per Share is defined as the Net Asset Value divided by the number of Shares then outstanding.

Who Should Purchase/Subscription Procedure

This offering is limited to non-U.S. persons who have the ability to speculate in high risk securities and for whom such a purchase is suitable in light of such person's financial condition. The Company will require as a condition to the acceptance of a subscription that the subscriber represent and warrant that he has a net worth in excess of U.S. \$1,000,000 and is not a U.S. person.

Prospective subscribers should inform themselves as to the legal requirements within their own countries for the purchase of Shares and any foreign exchange or tax considerations relevant to such purchase.

As part of the Company's responsibility for the prevention of money laundering, the Company will require detailed verification of a prospective investor's identity to be included with its subscription application.

An individual will be required to produce a copy of a passport or identification card. Corporate applicants will be required to produce a certified copy of the certificate of incorporation (and any change of name), memorandum and articles of association (or other documents evidencing the existence of the legal entity), the register of directors or an excerpt from the trade register held at the relevant chamber of commerce and the signatory card verifying the authority of officers to sign on behalf of the corporate entity. Trusts and other entities which subscribe to the Company must demonstrate organizational documents which verify the existence of the entity and which verify the authority of one or more signatories to sign subscriptions on behalf of the entity.

The Company reserves the right to request such further information as is necessary to verify the identity of an applicant. In the event of delay or failure by the applicant to produce any information required for verification purposes, the Company may refuse to accept the application and the subscription moneys relating thereto.

In order to subscribe for Shares, subscribers must complete and sign the Share Application Form included in the Subscription Documents which accompany this Offering Memorandum, and indicate the dollar amount of Shares that are being purchased and mail them to Fairfield Sentry Limited, c/o Citco Fund Services (Europe) B.V., Strawinskylaan 1725, 1077 XX Amsterdam, P.O. The Manager will receive, for each calendar quarter, a performance fee (the "Performance Fee") in an amount equal to 20% of the amount of any New High Net Profits earned by the Company. Shares which are purchased or redeemed during a calendar quarter shall be subject to the payment of the Performance Fee only for the portion of the quarter during which such Shares were outstanding. New High Net Profits are defined as the excess, if any, of, respectively, (A) the Net Asset Value as of the last day of a calendar quarter (before deduction of the current performance fee, if any, paid or payable) over (B) the difference between (i) the sum of (a) the highest Net Asset Value of the Company as of the last day of any preceding calendar quarter during which such share was outstanding, or the date of the initial closing of this offering (or if such Share was issued thereafter, as of the date of such issuance, whichever date the Net Asset Value was higher), and (b) the amount of any subscription proceeds for Shares issued as of, or subsequent to, the date thereof, and (ii) the amount of dividends, distributions and redemptions payable as of, or subsequent to, the date thereof, and losses, if any, associated with redeemed Shares. IN OTHER WORDS, PERFORMANCE FEES WILL ONLY BE PAID ON "NEW APPRECIATION" IN THE NET ASSET VALUE OF THE COMPANY. No Share will be subject to the payment of a Performance Fee until all Shares have recouped their respective loss carryovers; i.e., until the Net Asset Value of such Shares is at least as high as the previous highest Net Asset Value per Share.

Pursuant to its agreement with the Company, the Manager may elect to defer payment of all or portion of its Performance Fees.

## **SALARIES AND OTHER PERSONNEL EXPENSES**

Mr. Noel will not be compensated for serving as a director of the Company, but he and representatives of the Manager will be reimbursed by the Company for any out-of-pocket expenses they may incur in attending meetings of the Board of Directors or of shareholders. The directors not affiliated with the Management, of which there are at the present time two, will each be paid a fee of \$5,000 per annum by the Company together with his out-of-pocket expenses in attending meetings of the Board of Directors or of shareholders.

## **ESCROW BANK AND CUSTODIAN**

The Company's escrow account is maintained at Citco Bank Nederland N.V. Citco Global Custody N.V. ("Citco Custody") has agreed to act as the custodian of the Company's assets. Bernard L. Madoff Investment Securities has entered into an agreement with Citco Custody pursuant to which Bernard L. Madoff Investment Securities will serve as a sub-custodian of the Company's assets.

## **ADMINISTRATOR, REGISTRAR AND TRANSFER AGENT**

Pursuant to an agreement between Citco and the Company, Citco serves as the administrator for the Company, under the overall direction of the Company's Board of Directors. As administrator, Citco has the responsibility for furnishing the day to day administrative services which the Company may require, such as: accounting services; maintaining the Company's books and records; preparation of reports and accounts; calculation of Net Asset Value and fees; communications with shareholders and/or governmental bodies; paying the Company's expenses; providing suitable facilities and procedures for handling dividends and distributions (if any) and the orderly liquidation and dissolution of the Company, if required.

To the extent that Citco relies on information supplied by the Company, any investee fund of the Company or any brokers engaged by the Company, in connection with making any of the aforementioned calculations, Citco's liability for the accuracy of such calculations is limited to the accuracy of its computations. Citco shall not be liable for the accuracy of the underlying data provided to it.

## **RISK FACTORS**

Among the substantial risk factors involved in a purchase of Shares in the Company are the following:

### **TRADING RISKS.**

Substantial risks are involved in the trading of equity securities and options. Market movements can be volatile and are difficult to predict. U.S. Government activities, particularly those of the Federal Reserve Board, can have a profound effect on interest rates which, in turn, substantially affect securities and options prices as well as the liquidity of such markets. Politics, recession, inflation, employment levels, trade policies, international events, war and other unforeseen events can also have significant

impact upon the prices of securities. A variety of possible actions by various government agencies also can inhibit the profitability of the Company's business or can result in losses. Such events, which can result in huge market movements and volatile market conditions, create the risk of catastrophic losses for the Company.

1. Various techniques are employed to attempt to reduce a portion of the risks inherent in the trading strategy utilized on behalf of the Company. The ability to achieve the desired effect through a particular technique is dependent upon many factors, including the liquidity of the market at the desired time of execution. Thus, substantial risk remains that the techniques employed on behalf of the Company cannot always be implemented or effective in reducing losses. At various times, the markets for exchange-listed equity securities and options and/or other securities may be "thin" or illiquid, making purchases or sales of securities or options at desired prices or in desired quantities difficult. The volume and volatility of trading in the market depend in part on general public interest and public opinion concerning economic conditions as well as the liquidity provided by market-makers and specialists. The liquidity of the market may also be affected by a halt in trading on a particular securities exchange or exchanges. Illiquid markets may make it difficult to have an order executed at a desired price.
2. Securities Trading is Speculative. Options, and sometimes, stock prices, may trade in a highly volatile manner. Price movements are influenced by, among other things, changing supply and demand relationships, governmental and trade programs and policies, and national and international political and economic events. The value of an option depends largely upon the likelihood of favorable price movements in the underlying interest in relation to the exercise price during the life of the option.
3. Trading Strategies May Not be Successful. There can be no assurance that any trading method employed on behalf of the Company will produce profitable results, and the past performance of the Company and the other funds managed by the Manager and its principals are not necessarily indicative of the future profitability of the Company. Profitable trading is often dependent on anticipating trends or trading patterns. In addition, markets experiencing random price fluctuations, rather than defined trends or patterns, may generate a series of losing trades. There have been periods in the past when the markets have been subject to limited and ill-defined price movements, and such periods may recur. Any factor, which may lessen major price trends (such as governmental controls affecting the markets), may reduce the prospect for future trading profitability.
4. Dependence Upon Principals and Bernard L. Madoff Investment Securities. The services of Messrs. Tucker and Noel and Bernard L. Madoff Investment Securities are essential to the continued operations of the Manager. If any of their services were no longer available, their absence would have an adverse impact upon an investment in the Company. The manager has delegated all investment management duties to Bernard L. Madoff Investment Securities. As a result, the Company is subject to the judgment, decisions and trading opinions of Bernard L. Madoff Investment Securities and has no control over the decisions implemented by Bernard L. Madoff Investment Securities.
5. Conflicts of Interest. The Manager's Directors and Bernard L. Madoff Investment Securities and its principals, are presently affiliated with and may in the future form and manage other investment entities (including, without limitation, investment

partnerships, investment companies and mutual funds) with substantially the same or different objectives as those of the Company. They may also make investments in securities for their own accounts. In addition, the Manager functions as the investment manager for unregistered foreign investment companies and as the commodity pool operator for entities in addition to the Company. Such activities could detract from the time that the Manager and its principals, and Bernard L. Madoff Investment Securities and its principals allocate to the affairs of the Company.

6. **Conflicts of Interest-Transaction Executions.** Bernard L. Madoff Investment Securities, in its role as a market-maker, trades with the Company as principal. Bernard L. Madoff Investment Securities also makes the investment decisions on behalf of the Company through a grant of discretionary authority over the Company's account at Bernard L. Madoff Investment Securities. As a result of this discretionary authority, Bernard L. Madoff Investment Securities has the ability to use the Company's assets to enhance its market making function and no arm's length relationship exists between the Company and Bernard L. Madoff Investment Securities in the execution of stock and options transactions for the Company's account.
7. **Competition.** The securities industry is highly competitive in the United States. Competition from other persons or entities involved in activities similar to those of the Company can restrict the ability of the Company to acquire positions at the prices deemed most beneficial to its overall trading strategies. Many such competing persons or entities are better capitalized and have more experience in trading than the Company. Moreover, the widespread use of computer-assisted trading systems for trading strategies can alter trading patterns or affect execution of trades to the detriment of the Company.
8. **Regulated Industries.** The securities industry is highly regulated. The Company will not be directly subject to regulation by the SEC, national securities exchanges, or the Federal Reserve Board. However, the SEC regularly reviews the practices and procedures of the securities industry and the marketplace in general, and from time to time revise rules and regulations pertaining thereto. The exchanges engage in similar reviews and at times revise their rules. There can be no assurance whatsoever that any rules and regulations promulgated by the SEC, the Federal Reserve Board, the CFTC or the various securities exchanges or statutory amendments to the Securities Exchange Act of 1934 will not adversely impact the Company.
9. **Over-the-counter Options Transactions.** A portion of the options transactions effected on behalf of the Company utilizes the over-the-counter market for their execution. Trading equity and index options in the over-the-counter market is subject to counterparty credit risk and is without the protections afforded by transactions effected through the Options Clearing Corporation, a registered clearing facility. Bernard L. Madoff Investment Securities does not act as a counter-party in the options transactions, nor has it ever done so in the past.
10. **Option Buyer's Risk of Loss of Entire Investment.** An option is a wasting asset, which becomes worthless when the option expires. As the remaining life of an option shortens with the passage of time, its value is reduced until it reaches zero upon expiration. This means that the option buyer who neither sells it in the secondary market nor exercises it prior to expiration will lose his entire investment in the option.

11. **Arbitrage Transactions.** Among the many risks of arbitrage transactions are that two or more buy or sell orders may not be able to be executed simultaneously at the desired prices, resulting in a loss being incurred on both sides of a multiple trade arbitrage transaction. Also, the transaction costs of arbitrage transactions can be especially significant because separate costs are incurred on each component of the combination. Consequently, a substantial favorable price movement may be required before a profit can be realized.
12. **Assignment of Puts or Calls.** Substantial losses may result under certain circumstances if a hedged position becomes a long or short position due to the assignment of the short put or short call portion of the hedged position. Under normal market conditions, the remaining portion of the previously hedged portion may be liquidated or otherwise adjusted to limit exposure to price changes. Suspension of trading of the option class or underlying securities followed by a price gap at the reopening of trading might result in substantial losses. The same would be true given an illiquid market such as that of October 1987.
13. **Prohibition of Exercise Rights.** The options markets have the authority to prohibit the exercise of particular options. If a prohibition on exercise is imposed at a time when trading in the option has also been halted, holders and writers of that option will be locked into their positions until one of the two restrictions has been lifted.
14. **Limitation on Liability of the Manager.** Pursuant to the Investment Management Agreement between the Company and the Manager, the Manager is not responsible for losses arising out of an error of judgment or simple negligence, but is only responsible for losses resulting from willful misfeasance, bad faith, gross negligence or a reckless disregard of its duties and obligations. Accordingly, Shareholder losses will not be recoverable from the Manager if they resulted from an erroneous decision made in good faith or simple negligence. In order for a Shareholder to obtain a recovery from the Manager, the Shareholder will have to demonstrate a high degree of misconduct on the part of the Manager. Such a high burden of proof may serve to effectively insulate the Manager from liability in the event a Shareholder suffers a loss in his investment in the Company.
15. **Exchange Rate Risk.** The Company will maintain its assets in U.S. dollars. The Net Asset Value per Share is determined in U.S. dollars. Non-dollar investors are subject to possible reduction in the value of their Shares due to changes in the rate of exchange between the U.S. dollar and their native currency.

## **POTENTIAL CONFLICTS OF INTEREST**

The Manager, its principals, and Bernard L. Madoff Investment Securities and its principals, may form and manage other investment entities (including without limitation investment partnerships, investment companies, mutual funds and offshore funds) in the future with substantially the same or different objectives as those of the Company. They may also make investments in securities for their own accounts. Such activities could detract from the time they allocate to the affairs of the Company and Bernard L. Madoff Investment Securities, as the case may be. Similarly, Messrs. Naess and Schmid, the non-affiliated directors, have other business interests and will not devote their entire time to the Company's affairs.

**PRIOR TRADING RESULTS**

The Company's securities trading activities, are directed by the Manager. Set forth below are the prior trading results of the Company since its inception. The trading results of the other entities for which the Manager or its affiliates have directed trading, or with which they have otherwise been affiliated, may be obtained upon request.

**THE COMPANY**

The Company allocates its assets to an account at Bernard L. Madoff Investment Securities (not affiliated with the Company's Directors or FGL) which employs a strategy described as "split strike conversion". This strategy has defined risk and profit parameters which may be ascertained when the position is established. The transactions for a typical position would be (i) the purchase of a group or basket of equity securities that together will highly correlate to the S&P 100 Index (the "OEX"), (ii) the sale of out of the money OEX call options in an equivalent contract value dollar amount to the basket of equity securities purchased, and (iii) the purchase of an equivalent number of out of the money OEX put options. A call option is out of the money when its strike price is greater than the current price of the stock; a put option is out of the money when the strike price is lower than the current price of the stock. The basket typically consists of approximately 35 stocks in the S&P 100 Index. Sentry issued its shares at \$200 per share. As of April 30, 2000, Net Asset Value per Share was \$686.23 (subject to audit). Prior performance is shown below on a monthly basis through April 2000.

**NOTES TO TABLE**

- 1) Beginning Net Asset Value represents the sum of cash, cash equivalents and equity balances in trading accounts accounted for at fair market value. Beginning Net Asset Value is the same as the previous reporting period's Ending Equity.
- 2) Additions are the sum of capital contributions as of the last day of the reporting period.
- 3) Withdrawals are the sum of partial or total withdrawals of capital as of the last day of the reporting period.
- 4) Net Profit/Loss is the sum of the profits and losses realized from trading activities during the reporting period net of the quarterly performance fee (20% of new high net profits) for the reporting period paid to FIM, which has been allocated monthly for purposes of this chart.
- 5) Ending Equity is the sum of Beginning Net Asset Value plus additions, minus withdrawals, and Net Profit/(Loss) for the reporting period. Ending Equity is the Beginning Net Asset Value for the following reporting period.
- 6) Rate of Return is calculated by dividing Net Profit/(Loss) for the reporting period by the Beginning Net Asset Value for that reporting period. The cumulative Rate of Return figures which appear at the end of each year are calculated by applying on a compound basis each of the monthly or quarterly rates of return for such year to the Beginning Net Asset Value at the beginning of such year, not by adding or averaging the rates of return.

## **DESCRIPTION OF SHARES**

The Company is authorized to issue up to 5,000,000 shares of common stock, with par value of U.S. \$.01. The Company has an authorized share capital of U.S. \$50,000. The Shares will be issued in book entry form, unless delivery of the Shares in registered form is requested. Shares will not be issued in bearer form. Each Share, when issued, will be fully paid and non-assessable.

Holders of Shares are entitled to one vote per Share and will participate on a pro rata basis in the assets of the Company on liquidation and in dividends and other distributions as declared.

## **DIVIDEND POLICY**

Since the business objective of the Company is directed toward achieving capital appreciation, it is anticipated that the Company will not declare any dividends or make any distributions to its shareholders. Subject to the foregoing and to applicable law, the Company's Board of Directors will have sole discretion in determining the amount and frequency of dividend distributions, if any

## **TRANSFERS, REDEMPTIONS AND TERMINATION**

### **TRANSFERS**

NO SALE OR TRANSFER OF SHARES WILL BE PERMITTED WITHOUT THE COMPANY'S CONSENT; HOWEVER, SHARES MAY BE REDEEMED AS OF THE LAST DAY OF EACH MONTH OF EACH YEAR.

Any sale or transfer of a shareholder's entire interest in any Shares or any transfer of Shares by operation of law must be submitted to the Company for consent and will not be effective until such consent is given by the Company. Any other dealing with Shares by way of assignment, pledge, mortgage or otherwise is prohibited unless consented to by the Company and any attempt to do so without first obtaining the Company's consent, which may be withheld in the sole and exclusive discretion of the Company, will constitute grounds for compulsory redemption of the Shares concerned as of the next permissible redemption date (as described below) and the imposition of a processing charge of 2% of the Net Asset Value with respect to such redemption. Any application to record a transfer of Shares, including an application to record a transfer by operation of law, if not approved by the Company within 30 days, also will be treated as an application to redeem the Shares in question as of the next permissible redemption date and will be subject to a processing charge per share of 2% of the Net Asset Value per Share. The Company's shares are listed on the Irish Stock Exchange, Dublin, Ireland. There can be no assurance that a trading market in the Company's Shares will develop. Shareholder redemption rights, as set forth below, are not affected by the Company's Shares being listed on the Irish Stock Exchange.

THE DISPOSITION OF SHARES TO U.S. PERSONS (AS DEFINED UNDER "OFFERING OF SHARES") WITHOUT THE PRIOR WRITTEN APPROVAL OF THE COMPANY IS EXPRESSLY PROHIBITED, AND THE COMPANY SHALL HAVE THE RIGHT COMPULSO-

RILY AND IMMEDIATELY TO REDEEM ANY SHARES HELD FOR ANY REASON BY U.S. PERSONS.

### **REDEMPTION AT THE OPTION OF THE SHAREHOLDERS**

A shareholder may cause part or all of his Shares to be redeemed as of the last day of each month of each year, provided that the Company shall be in receipt of written notice of redemption for at least ten (10) business days prior to such redemption date. In the Company's discretion, a shareholder requesting redemption of part of his Shares may be required to redeem all of his Shares unless such shareholder notifies the Company to cancel the redemption.

### **COMPULSORY REDEMPTION**

The Company reserves the right to call all or a part of a shareholder's Shares for redemption at any time for any reason or no reason. Except as set forth above, no processing charge will be imposed with respect to any Shares so compulsorily redeemed.

### **REDEMPTIONS - GENERAL INFORMATION**

Redemptions will be at the Net Asset Value per Share, subject to any applicable processing charge, as described above. If notice of intent voluntarily to redeem is not received by the Company within the prescribed period of time, then in the Company's discretion, the redemption date may be deferred to the end of the next following permissible redemption period, unless the shareholder notifies the Company to cancel the redemption. Except in the case of extraordinary circumstances, such as an inability to liquidate existing positions, or the default or delay in payments due the Company from brokers, banks or other persons, payment on redemptions will be made within 30 days after the redemption date. The Company will not pay interest to the redeeming shareholder on any payment.

Shareholders bear the risk of any decline in Net Asset Value from the date notice of intent to redeem is given until the redemption date. In addition, the Company reserves the right temporarily to suspend any redemption if the effect of substantial redemptions would seriously impair the Company's ability to operate. Requests for redemption can be made by use of the form included in the Subscription Documents, which accompany this Offering Memorandum.

### **TERMINATION**

The shareholders may, by a majority vote, elect to wind up and dissolve the Company at any time. If the Company's Board of Directors determines that it would be in the best interests of the Company to wind up and dissolve the Company at any time, it will recommend to the shareholders that they vote to do so, and will submit a plan of dissolution for approval by the shareholders.

### **TAX CONSIDERATIONS AND EXCHANGE CONTROL**

Under current legislation in the British Virgin Islands (the "BVI"), there should be no income tax, capital gains or withholding tax, estate duty or inheritance tax payable by the Company or its shareholders who are not residents or citizens of the BVI, in respect of their Shares.

There are no exchange control restrictions in the BVI. Accordingly, the Company will be free to acquire, to hold and to sell any foreign currency and securities without restriction.

The Company's gains from its trading in stocks, options or other investments should not be subject to United States federal income, branch or withholding taxes because the Company expects that it will not be engaged (or be treated as engaging) in a "trade or business" in the United States, or will not be treated as a personal holding company, for United States federal income tax purposes. Any dividend income received by the Company from U.S. corporations generally will be subject to United States federal withholding taxes. Although substantially all of the interest earned by the Company from sources within the United States is expected to be of the type which will not be subject to United States federal income, branch or withholding taxes, the Company may earn interest from time to time that could be subject to United States federal income, branch or withholding taxes (although it is not expected that the amount of such taxes would be material). In addition, with respect to Shares held by non-U.S. persons who are not engaged in a "trade or business" in the United States (as defined under the Internal Revenue Code ["Code"]), such persons should not be subject to United States federal income, branch or withholding taxes (i) on dividends paid to them by the Company and (ii) on the redemption of their Shares by the Company. The Company expects that it will not be subject to state and local taxes in the United States on its income or capital. Because of the absence of full guidance under state and local law, however, this result is not entirely clear. The conclusions in this paragraph are based on the Code and existing laws, judicial decisions and administrative regulations, rulings and practice in the United States, all of which are subject to change.

Prospective subscribers should consult their professional advisors on the possible tax consequences of subscribing for, buying, holding, selling, transferring or redeeming Shares under the laws of their country of citizenship, residence or domicile.

## **LEGAL MATTERS**

Legal matters in connection with this offering have been passed upon for the Company in the United States by Andrew E. Goldstein, Esq., 909 Third Avenue, 18th Floor, New York, New York 10022.

## **MISCELLANEOUS**

### **REPORTS AND FINANCIAL STATEMENTS**

The Company's fiscal year will end on December 31, except that the Company's final fiscal year will terminate on the date the Company is placed in liquidation. The Company will keep its books on an accrual basis. Audited financial statements of the Company will be mailed to shareholders at their registered addresses, normally within 120 days after year-end. At the same time, each shareholder shall be furnished with an annual report of the Company, which will include the Net Asset Value of the Company and the Net Asset Value per Share at the end of the year, and such other information as the Company, in its discretion, determines to be necessary or appropriate. Shareholders also will receive unaudited quarterly letters with respect to the Company's financial performance.

### **DOCUMENTS AVAILABLE FOR INSPECTION**

The Company's books of account and all material documents, including copies of the Company's Memorandum of Association and Articles of Association, the Company's Agreement with the Bank and

with the Administrator, Registrar and Transfer Agent shall each be kept at the Company's business office in the British Virgin Islands and each share-holder (or any duly constituted designee of a share-holder) shall have, at all times during reasonable business hours, free access to such documents.

2 Directors' report

*Fairfield Sentry Limited,  
Road Town, Tortola, British Virgin Islands*

[REDACTED]

## 2.1 Directors' report

Results for 2000 were satisfactory. Expenses, including performance fees, were 20.2% of gross income, approximately the same as the last two years. Declines in U.S. equities during the latter portion of the year resulted in a charge to earnings, for the year, from trading activities in equities, of (37.2%). These losses were offset by gains associated with hedging transactions, the purchase and sale of put and call options on the S&P 100 Index. The gains from hedging offset all the losses from trading in the equity markets, and represented approximately 81.6% of gains earned by the company. Income from investments in U.S. Treasury investments accounted for 29.3% of net gains.

The trading strategy of the company requires a favourable environment for its implementation. The elements of a favourable environment include liquidity and volatility in the equity markets. Both elements were adequate during most of 2000 and the prospects for the future appear to be satisfactory. However, further significant, protracted deterioration of the U.S. equity markets, could impact upon liquidity.

The strategy also requires the ability to access low cost execution for the stock and options transactions. The competition for execution business in the U.S. is very intense. Consequently, the cost of trading has been well controlled, and should be maintained for the foreseeable future.

The company's asset size has grown significantly during the past 36 months. While liquidity in the U.S. equity markets has also increased during this period, the asset size of the company could have an adverse impact on its results, particularly in the event of reduced liquidity and volatility in the equity markets.

Finally, the company has two large institutional investors, each of whom owns in excess of 6% of the capital of the company. A redemption by either investor would require a significant liquidation of the company's positions. At the present time such a redemption would likely be accomplished without a material impact on the affairs of the company.

### 3.6 Notes to the financial statements

#### 3.6.1 General

Fairfield Sentry Limited ('the Company') was incorporated in the British Virgin Islands on October 30, 1990 under the provisions of The Mutual Funds Law of the British Virgin Islands. The Company began operations on October 30, 1990. The first shares were issued against cash.

The financial records and statements are maintained and presented in US dollars.

The investment objective of the Company is to seek to achieve capital appreciation of its assets by allocating its assets to trading accounts at Bernard L. Madoff Investment Securities, a registered broker-dealer in New York, which employs an options trading strategy described as a 'split strike conversion' strategy. The strategy has defined risk and profit parameters which may be ascertained when the position is established. The transactions for a typical position would be:

- a. the purchase of a basket of approximately 35 equity securities that together will highly correlate to the S&P Index (OEX);
- b. the sale of out of the money OEX call options in an equivalent contract value dollar amount to the basket of equity securities purchased;
- c. the purchase of an equal amount of out of the money OEX put options.

A call option is out of the money when its strike price is higher than the current price of the S&P Index. A put option is out of the money when its strike price is below the price of the S&P Index.

Pursuant to the provisions of the Articles of Association, changes in the net asset value of the Company are allocated to each share on a continuous basis.

Each share entitles the holder to one vote and to receive such dividends as declared by the directors and to participate upon liquidation on a proportional basis.

Dividend policy is determined by the directors and current policy is directed towards capital appreciation.

The minimum initial subscription per investor for the shares is USD 100,000, unless the Company deems it advisable to permit subscriptions for a lesser amount.

Subscriptions received during any monthly period will be accepted as of the first day of the following month.

Redemption at the option of the shareholder will be accepted at the end of any month taking into account ten days notice. The Company reserves the right to call all or a part of a shareholder's shares for redemption at any time for any reason or for no reason.

### *3.6.2 Significant accounting policies*

#### *General*

The accompanying financial statements have been prepared under the historical cost convention, modified by the valuation of investments at market value, and in accordance with International Accounting Standards (IAS). The preparation of financial statements in conformity with IAS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.
